

AVAILABILITY, PRICING & ORDERING

TO OUR VALUED PARTNERS

OneCanopy aims to be a premier partner across the entire conservation and reforestation pipeline, beginning with the establishment of the OneCanopy nursery and seedling tree program. The OneCanopy nursery is located in Loveland, Colorado, just minutes from I-25. The nursery property is home to 34,000 square feet of greenhouse space and four acres of additional property dedicated to future stooling blocks and seed orchards.

Currently, 300,000 seedlings have been sown with more on the way. These seedlings will be available for Spring and Fall 2023 planting seasons. We hope the information below will offer clarity on our pallet and operations for 2023, however this information applies only to the 2023 season. OneCanopy logistics, operations, pricing, and terms will be continually reviewed and revised to provide the best service and highest quality seedlings for future years.

OneCanopy will announce pick-up dates for seedling trees in Spring 2023. At that time, we will ask purchasing partners to commit to a scheduled pick-up date and time.

Alternatively, OneCanopy will offer shipping through a third party carrier (UPS, FedEx, etc.). Shipping costs will be the responsibility of the customer. OneCanopy aims to provide superior customer service; to that end, we are also discussing regional “hub” deliveries that would be facilitated through our operation. OneCanopy welcomes feedback and collaborative solutions regarding regional deliveries.
